Is there something similar for using git-annex with git-squash? Not necessarily for merging, but rather more like my favorite git-annex config - a single mutable file with all of the per-commit data. ----- davexunit This looks like an excellent alternative to git-annex-shell. ----- ricardobeat There is also a simpler version with the same features (except merging) available in this project. ~~~ sashamet Wow! Nice. Is that based on your wrapper code, or is there a tutorial somewhere you used this to do so? Would be great to see that. ~~~ ricardobeat It is a wrapper based on the original "git-annex-shell", so if you want to get started with the git-annex project you can take this as the base of what to do. Regarding the tutorial, unfortunately I can't find a tutorial, but you can examine the code: the script is in gannex/merge.py and the parts of the script I found essential were in gitannex/util.py ----- jadale I would love a per-directory merge option... The git-annex-shell has it. ~~~ jcr Yes, the primary use case is for a directory of git repos. This can be extended to a per-directory "merge" option. 0cc13bf012
