

SDR Free Barcode Generator Download For PC

===== SDR Free Barcode Generator is a fairly simple application that serves to generate barcodes of various types with the utmost ease. Its feature set is basic, however, tasks are carried out quickly and efficiently. The program joins the barcode market with a straightforward and clean approach, benefitting all audiences on account of its ease of use. Learning how to use it is a matter of a couple of minutes. SDR Free Barcode Generator relies on a simple and complication-free installation process, at the end of which a desktop shortcut is created for ease of access. In terms of appearance, the application is brought inside a minimalistic and plain GUI that remains intuitive throughout your whole experience with it. The interface is divided into three main sections, the first of which is dedicated to the barcode type selection with options that include some of the most popular schemas such as Code 39, CodaBar, Code 128, Interleaved, UCC / EAN, UPC, EAN / JAN, ISBN and MSI. The next step requires you to enter the barcode data, which can consist of custom text and even links. As you type the data in the dedicated box, the application generates the barcode in live mode in the lower area of the GUI. The result can be saved to PNG format, for later reference. In conclusion, despite being so simple in appearance and functionality, SDR Free Barcode Generator carries out the task nicely. Nonetheless, it could use richer support for barcode formats, as well as options to export to other popular image types.
